# IT Security Awareness Training

FedCo

The *IT Security Awareness training for IT Staff* contain the fundamental concept regarding cyber security practices and assurance, covering the *cyber security threat, vulnerabilities and risk* as the starting point

The *conceptual framework* of the cyber security assurance mapped from the technical background to develop the integrated understanding of security assurance in personal life, family and company environment

The strengthening of the understanding will then be elaborated more on the *case study and game session* that will give more real practice example

The *IT security assurance best practices* segment will complete the whole session by giving simple feasible tips & tricks to be implemented in daily life activities

**Training Options:**

3 - 4 hours format  
(Price Rp. 10 Million/batch)  
1 day format  
(Price Rp. 20 Million/batch)

**Requirement:**

Minimum 5 participants  
(Maximum 25 persons per batch)

**Target Participants:**

For IT and Non IT Staff

Flexible in time and content (adjustment per specific request)
